

on the GREEN

A weekly publication for Gallaudet staff and faculty

Gallaudet College Library
7th St. and Florida Avenue, N.E.
Washington, D.C. 20002

October 11, 1982

Vol. 13, No. 2

A view from above. . . These aerial photos of Gallaudet's dorms and plaza area (above) and Kendall School (below) were taken recently when campus photographer Charlie Shoup and GCTV personnel buzzed the campus in a helicopter (narrowly missing Chapel Hall, according to the building's occupants!)

Variety of games and activities planned for Homecoming weekend

The Gallaudet College Homecoming is set for this Saturday, Oct. 16, when the Bison football team takes on Appalachian State University football club.

Also on Homecoming day, the soccer team is scheduled to play the Toronto Deaf Club immediately following the football game.

The women's volleyball team will be participating in a volleyball tournament on the 16th and 17th at Washington College.

The cross country team is scheduled to have a meet against Johns Hopkins beginning at 11 a.m. on the track.

The traditional Homecoming pep rally will be held Friday night, Oct. 15, from 7-9 p.m. in the Field House.

After the rally, a pre-Homecoming party is scheduled from 9 p.m. -2 a.m. at the Kendall School parking plaza. Admission for this party is \$3.00 per person and a live band will be featured.

Everyone is hoping for good weather on Saturday to see the parade and floats which will pass by the stands by the football field. The parade begins at

noon. Prior to that, a Homecoming brunch will be held at the Ole Jim. Cost is \$5; contact Polly Peikoff.

The finale is the Homecoming dance which will be held at the Stouffer Hotel in Crystal City, VA starting at 9 p.m. Admission charges are: students with college ID cards \$10.00 per person or \$15.00 per couple and non-students \$13.00 and \$20.00 respectively. Live entertainment is scheduled to be provided by the "Joint Venture" band. Hors d'oeuvres will be served and drinks will be available for purchase at reasonable prices.

In connection with Homecoming activities, Musign Theatre Company, a professional deaf group, will perform Oct. 15 and 16 at 8 p.m. in Elstad Auditorium. The group was created by former Gallaudet student Rita Corey, Bob Hiltemann and Ed Chevy. The performance is being sponsored by the Theatre Arts Department. Tickets are available at the Theatre Arts Box Office. The price is \$4 for students and \$6 for others. Box Office hours are Oct. 11-14 from 2-5 p.m. and Oct. 15-16 from 2-8 p.m.

And finally, the Bookstore has announced that it will be open on Homecoming day from 10 a.m. -2 p.m.

Road closed

From 2:45-3:15 p.m., Kendall students are boarding Gallaudet vehicles. In order to complete the loading of students safely, Switzer Drive, the road in front of Kendall School, will be closed during that time.

Demonstration of Line 21/Teletext compatibility set

A demonstration of the compatibility between Telecaption (Line 21) decoders and the Teletext system will be held all day in Ely Center's Multipurpose Room Monday, Oct. 18.

From 9 a.m.-4 p.m., the demonstration will show that all closed captions, whether produced through Teletext or Telecaption methods, can appear on Telecaption decoders as well as on future Teletext decoders. A Teletext system is under development by CBS-TV, although it is not yet known when that system may be available to the public.

The demonstration is being arranged by the National Captioning Institute. WJLA-TV (Channel 7) will lend a hand in the demonstration. The station will have Teletext equipment on hand and will be putting out information on Line 21 which will then be transferred to Teletext. Several types of Teletext systems are available, and the one used for the demonstration will be Keyfax, a British system.

Everyone on campus is invited to come during the day to see the demonstration.

New Arts Council to meet on campus

During the past several years, Gallaudet has made a concerted effort to bring museum quality works of art to campus as part of the College's goal to create a physical environment that reflects the importance of visual stimulation for deaf people.

This effort is now being enhanced through the establishment of the new President's Visual Arts Advisory Council, which will meet for the first time on campus Oct. 14 and 15.

Members of the Arts Council are Mrs. Joseph Hirshhorn of Washington, D.C.; Joan Brown, artist and faculty member at the University of California, Berkeley; Robert Rowan, museum trustee from Pasadena, CA; and Harry Drake, a collector from St. Paul, MN.

Arts Council members will meet with the president on campus once or twice a year but will also maintain contact with the president and Gallaudet's curator, Judy Bortner, during the year.

They will be helping the president assess program objectives, priorities and policies for the exhibition, acquisition and commissioning of works of art. The Council's advice will also be sought on curatorial and conservation issues, as well as the educational impact of exhibitions. The Council will play a key role in identifying resources for art loans, acquisitions and gifts. Their guidance will also be sought in suggesting ways to help interested students become professionally involved in the art field, and to sensitize museums to the special needs of their deaf constituents.

At Gallaudet this week, the group will be touring campus, visiting classes, receiving an orientation to the philosophy and goals of the visual arts effort at Gallaudet and discussing the role of the Council. They will receive recommendations for artists to be considered for a commission for the Northwest

Campus and will meet with Nancy Holt, who will be presenting her design for a new Kendall sculpture.

It is hoped that the President's Arts Council will build on the work that Gallaudet has done during the past five years of developing a network of museums, corporations and private collectors. During this time, works by more than 50 nationally and internationally known artists—including Auguste Rodin, Jasper Johns, Ansel Adams and Georgia O'Keeffe—have been exhibited at Gallaudet. Major sculptures by Jules Olitski, Clement Meadmore and Lloyd Hamrol have been commissioned, and the fourth project at Kendall by Nancy Holt is now in progress.

The exhibition philosophy at Gallaudet is that art should be integrated as fully as possible throughout campus and not confined to a single art gallery.

Charlotte Hawkins-Shepard with the Division of Research checks out the books available at the Gallaudet College annual book sale held Oct. 4-6.

Serendipity

Library Bits & Pieces

Detective Fiction

by Joe Springer

Detective fiction is not an area of special emphasis in Gallaudet's Library Acquisitions, but even a cursory examination of the Library's holdings will reveal an interesting assortment of such books. The College Library does try to provide some recreational reading for those who study and work here, in addition to meeting their academic and professional reading needs. Among recent additions to the shelves are five titles of varying styles and quality which may appeal to amateur sleuths who would prefer spending a rainy night with a good mystery rather than with the latest treatise on the audio-vestibular system.

The Man With a Load of Mischief (913.54 G7m 1981) is the product of Martha Grimes, an English professor at nearby Montgomery College. This highly readable book contains the classic components of English murder mysteries. One odd murder at a rural inn is the beginning of a string of bizarre Yuletide slayings which "the Yard's" Inspector Richard Jury must try to solve. Most of the Long Piddleton village elite happen to be present at the discoveries of the first two corpses (one with his head in a vat of ale, the other taking the place of a wooden figure on an inn sign) and most of them also have a past to hide. The characters Grimes invented are quite enjoyable, ranging from the rich, intelligent bachelor Melrose Plant, who has given up his noble title, to Mrs. Withersby, a rural version of a bag lady, who flails skunks to ward off evil.

The second book, *Appleby's End* by Michael Innes (813.5 15a 1965), bears some similarity to the first. Also set in rural England in the winter, an inspector, this time John Appleby, arrives to investigate a series of strange occurrences. Much of the action develops around the eccentric members of a family by the appropriately Gothic name of Raven. The book is humorous

and several twists in the plot keep the reader guessing not only "whodunit" and why, but also what, if any, is the crime.

The third and fourth books, *The Killing Circle* by Chris Wiltz (813.54 W5K 1981) and *Killing Time* by Thomas Berger (813.54 B47K 1981), are attempts at a more "modern style of detective fiction. Wiltz's book, told in first person by private eye Neal Rafferty, is not very successful at building suspense or even curiosity about the murder of a New Orleans rare book dealer. The book jacket is recommended reading only for those who like to know the identity of the culprit before starting a book. Berger's book is quite different, not maintaining even the veneer of a traditional mystery which Wiltz attempted. Instead *Killing Time* is a novel about the murderer and the way a time for killing and an effort to kill time coincide in his life. Armchair judges may wish to consider whether the hero of the novel deserves a "not guilty by reason of insanity" verdict or applause as an innovative philosopher.

Finally, for those who cannot justify forsaking a tome on the audio-vestibular system for "cheap" detective fiction, the Library has added a scholarly (almost) work on such fiction as a genre of literature. Robin W. Winks, who reviews similar works for *The New Republic*, has written a self-defense or sorts entitled *Modus Operandi: An Excursion Into Detective Fiction* (809.3 W5m 1981). The author knows the field quite well and one can learn how to dissect and classify the types of detective fiction, should one so desire. The book tends to ramble, however, and therefore is probably of interest only to those needing to assuage deep feelings of guilt before reading the other books mentioned above, or to true connoisseurs of the field. These belonging to neither group may simply proceed happily on to other works which may catch their eyes.

Campus-wide grants policy in effect

A campus-wide policy for administering federal or state grants and contracts went into effect at Gallaudet on Oct. 1. This policy, as listed in Gallaudet's "Administration and Operations Manual," is intended to ensure coordination and uniformity of procedures for seeking external sponsored program support.

The new policy encompasses all proposals seeking more than \$3,000 and includes requests for research, instruction or training, service, fellowships or traineeships, and media and materials development, among others. It also includes all new requests for grants or contracts, continuation requests on multi-year awards, major budget revisions and requests for time extensions in order to complete work specified within a grant or contract.

If any faculty or staff member of the Gallaudet community would like to seek funding from the public sector, contact should be made with Glenn Pfau, director of the Office of Sponsored Research (OSR). He and his staff will assist with the identification of possible funding sources, strategies that might be considered for developing a winning proposal, outlining of proposal components including the budget, completion of forms, required certifications and assurances, and obtaining the necessary approvals for processing and submitting the proposal.

The Office of Sponsored Research has responsibilities pertaining to grants and contracts at the federal and state levels. Gallaudet's Development Office is responsible for matters relating fund-raising efforts through the private sector. Thus, funds solicited from founda-

tions, corporations, and/or individuals should be coordinated through the Development Office. When funds could be solicited from either the public or private sector, the Office of Sponsored Research and the Development Office will work in a cooperative effort to determine the most appropriate funding sources.

Doin Hicks, vice president for research, is responsible for authorizing all proposal submissions. The OSR will be responsible for obtaining his approval and ensuring that the proposal meets Gallaudet and agency requirements. The proposal author will be required to obtain the necessary approvals at the respective department dean and vice presidential levels. These approvals will be obtained on a proposal "route sheet" that will be provided by OSR to each person writing a proposal. Doin Hicks should be listed as the Gallaudet "Certifying Representative" and Glenn Pfau should be listed as the Gallaudet "Negotiation Official" on all proposal submissions.

The OSR is also responsible for monitoring federal grants and contracts that are being carried out on campus. Although the actual administration of each award is the responsibility of the budget unit where the work is being done, the OSR will be providing reminders to the project directors concerning due dates of progress and financial reports, as well as assisting with other administrative details.

Again, if you are considering developing a proposal to a federal or state agency, contact the Office of Sponsored Research at x5030 voice or TDD.

Sponsored R&D

Grant/contract deadlines

Provided below are application deadlines of selected federal programs that offer potential grant or contract opportunities for Kendall Green faculty, staff and graduate students. More details on programs of interest can be obtained from the Office of Sponsored Research, x5030.

Deadline	Programs
10/15/82	NEH—Elementary and Secondary Humanities Education Grants
10/15/82	NEH—Humanities Youth Grants: Preliminary Narrative
10/15/82	IIE—Fulbright Grants: Requests for Application
10/15/82	NIHR—Improving Vocational Rehabilitation in Postsecondary Education Programs for Deaf Individuals
10/15/82	NIHR—New Generation Hearing Aid Research
10/15/82	NIHR—Enhancing Psychosocial and Linguistic Development for Deaf
10/29/82	ED—Fulbright Faculty Research Abroad Program
10/29/82	Fulbright Dissertation Research Abroad Program
10/31/82	IIE—Fulbright Grants: Application Submission
11/01/82	NEH—Humanities Youth Projects: Preliminary Narrative
11/01/82	NIMH—Preventive Intervention Research
11/01/82	NIMH—Stress Reactivity in Adolescence Research
11/01/82	NIJ—Justice Graduate Re-

search Fellowship
11/01/82 NIA—Behavioral Aging Research Small Grants

Government tells why proposals fail

Reasons why proposals to the federal government are not selected for funding have been provided in a pamphlet prepared for prospective government contractors. The publication—NAVMATP-4856—specifies the following 10 reasons for proposals failing to be funded:

- Oversimplification of the technical requirement or problem.
- Misinterpretation of, or failure to comply with, specifications.
- Failure to demonstrate an understanding of the technical requirement.
- Proposed solution is not feasible within existing time or cost constraints.
- Over-optimism in estimating performance or impact of proposed solution.
- Failure to include detailed and realistic cost and pricing information.
- Lack of realism regarding how the proposed solution will be integrated with existing operations.
- The proposal deals with the technical requirement in vague terms or in sweeping statements, and promises a solution but fails to demonstrate clearly that the offeror knows how to achieve the solution.
- The offeror's proposal does not adequately detail the personnel, program management or facilities to be used in accomplishing the task.
- The proposal does not respond to the requirements of the solicitation.

Tutorial Center helps students improve academic performance

The Tutorial Center, a unit of Student Affairs, plays a significant role in helping undergraduate Gallaudet students improve their academic performance, regardless of their academic standing.

The Tutorial Center serves approximately 30% of the undergraduate students and provides free, individual tutoring in all courses except English. Students attend the Tutorial Center for a variety of reasons, ranging from the need for a deeper understanding of the course material to an inability to follow the swift pace of lectures.

Tutors, or study partners, provide students with help on a one-on-one basis. First they diagnose the students' academic needs and then attempt to help them work on specific problems they may have with any part of the course material. Tutors also make an effort to encourage students to develop independent and individualized study habits. The development of a close, caring student-tutor relationship sometimes results, and enhances the academic support.

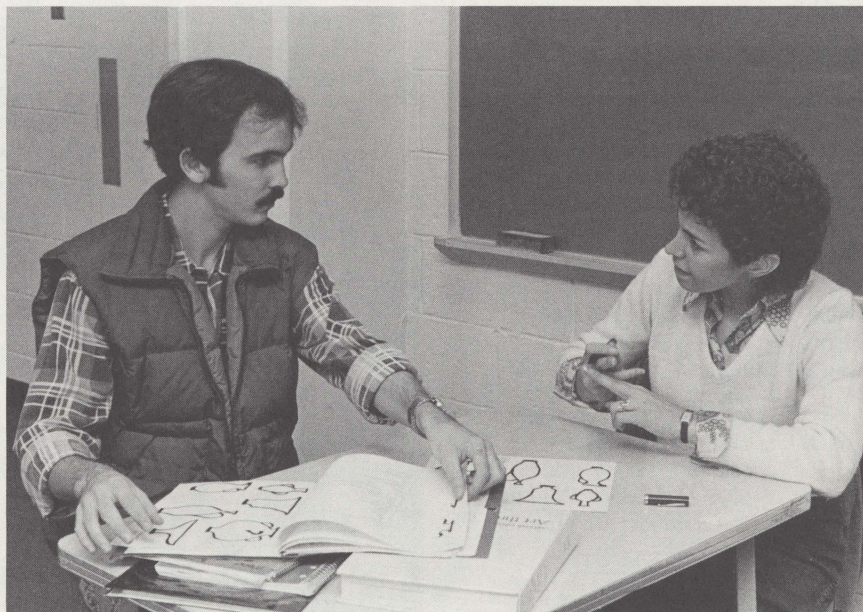

The majority of tutors are graduate and undergraduate students who are recommended by their instructors or department chairpersons. In addition to the desire to assist, which is the most important characteristic of a successful tutor, tutors are hired on the basis of several important qualifications: proficiency in both receptive and expressive communication, strong background in

the course the applicant wishes to tutor and ability to clearly communicate knowledge of material. Furthermore, the prospective tutors are prepared by the Peer Tutor Training Program (PTTP) held at the beginning of the school year.

All tutors are supervised by four full-time area coordinators who are under the direction of Janet Hoke. The area coordinators are Fran Harris, who is responsible for Math/Science; Jim Maher, Social Studies/Social Sciences; Linda Melnick, Art History/Foreign Languages; and Dave Frank, Business Administration. They are all assisted by Suzie Hayden, the secretary.

A matching system pairs the student and the tutor, who typically meet twice a week on a regular schedule. The first step in this system is to find someone among the hired tutors who has sound knowledge in the course for which the student seeks tutorial assistance. A match of the student's preferred communication mode and the tutor's ability in this communication mode is the next important step. When the first two steps are completed, both the student's and tutor's schedules are checked to find tutoring times which are mutually convenient. Walk-in-tutoring in math is also provided every weeknight.

The Tutorial Center, located on the third floor at Ely Center, is open from 8 a.m.-10 p.m. Monday through Thursday, and 8 a.m.-4 p.m. Friday for tutoring sessions.

Tutor Bruce Bailey helps student Michele D'Esposito study art history.

College Council discusses policies

Policies on Telecommunications and Contracts Administration were discussed at the College Council meeting held Sept. 29.

Dan Bryant, director of Business Services, attended the meeting to talk about the two proposed policies. He told the group that in the area of telecommunications, the Office of Business Services is now charged with the management, control and efficient use of the telephone system. Beginning with Fiscal Year 1983, all funds for telecommunications will go into a centralized utilities account, and each year, Central Administration will establish a budget for telecommunications activity.

We can expect changes in our telecommunications system, according to Bryant, due to budget limitations. Last year, Gallaudet spent \$451,000 on the telephone system, and next year charges will be increased and phones will be added at the Northwest Campus. It is estimated that the phone system will cost \$571,000 next year.

To help bring down costs, the Office of Business Services will periodically review the telecommunications system with departments and divisions, and all requests for services will be reviewed.

The largest change in the revised policy on Contracts Administration is that the Contracts Office has now been charged with monitoring contracts—providing support to the departments in making sure the job is done properly and supporting the contractors in making sure they get paid. Under the new policy, invoices would come directly to the Contracts Office.

Only the president and vice presidents can sign contracts for the College. For non-construction contracts, vice presidents can sign contracts for amounts up to \$5,000 and the president must sign contracts above that amount. The president also signs all construction contracts.

The proposed policy revision will be discussed by Central Administration at its October meeting.

Library employees Carolyn Jones and Jane Steinbacher stop for a chat in the lower level of the Learning Center.

Gallaudet College is an equal opportunity employer-education institution. Programs and services offered by Gallaudet College received substantial financial support from the Department of Education.

Gallaudet to exhibit at two conventions

On Oct. 12-15, Gallaudet College will be exhibiting at the American Council on Education in Minneapolis, MN. The ACE is composed of 1,600 institutions of higher learning and national and regional education associations. It is the major non-governmental body in the United States concerned with post-secondary education.

On Oct. 16-21, Gallaudet will have an exhibit at the annual meeting of the American Academy of Otolaryngology—Head and Neck Surgery in New Orleans, LA. More than 4,000 otolaryngologists, physicians with related specialties and other interested parties are expected to attend.

Anyone who is planning to attend either convention can contact Exhibits Coordinator Pete Moran, who will be in charge of the exhibits at the meetings.

Liz Barrett and Phyllis Kass of MSSD's Clinical & Support Services portray a shark and a student stranded on a desert island in a skit performed by CSS personnel for MSSD faculty and staff Oct. 4. The Student Life area at MSSD—including Athletics, Interorganizational Council and Residence Programs—put on skits, gave presentations and answered questions about how faculty and staff can help students help themselves.

Among Ourselves

Gilbert Eastman and William Moses of the Theatre Arts Department recently presented a lecture/workshop entitled "An Introduction to Visual-Gestural Communication" at the American Theatre Association Convention in New York City. During the convention, Moses was elected vice-chairman of the ATA national program, Drama and Theatre By, With and For Handicapped Individuals.

Jack Gannon, director of the Alumni and Public Relations Office, will be the keynote speaker at the Erie County Council Deaf Awareness Banquet in Erie, PA on Oct. 16.

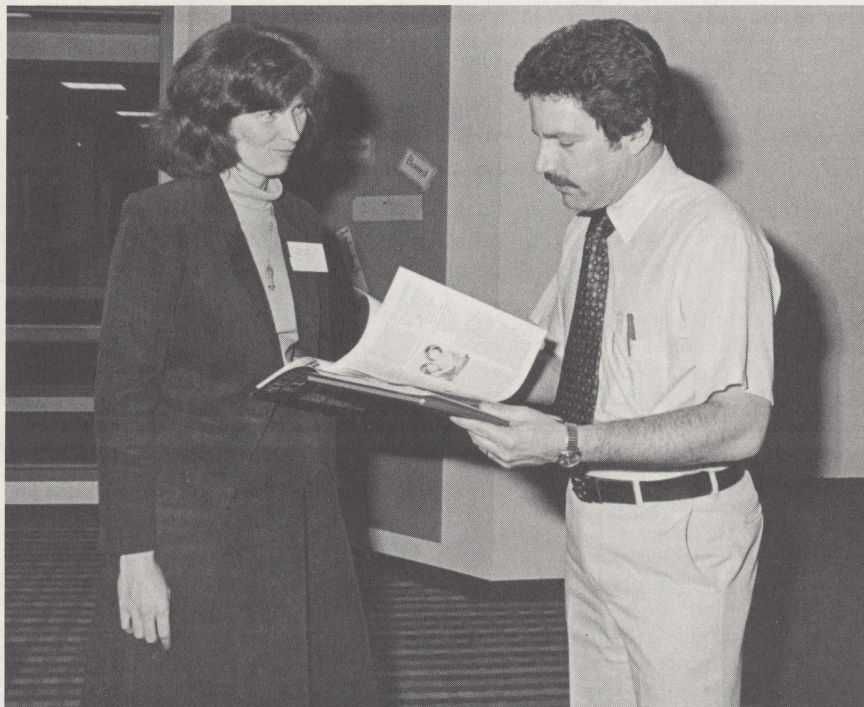

MSSD physical education teachers Peg Worthington and Dick Smrz gave a workshop on teaching and coaching deaf students at the 3rd Annual Conference on Physical Fitness for the Handicapped and Disabled held at Towson State University Sept. 24. The conference was sponsored by the Maryland Commission on Physical Fitness, WJZ-TV and the Developmental Disabilities Council. Worthington lectured on methods teachers may use for lectures and demonstrations with deaf students in a mainstream program and Smrz conducted a demonstration physical education class with 12 MSSD students. They participated in a modified "speed-away" game, a combination of field hockey, basketball, football and soccer. Worthington and four members of the Gallaudet women's volleyball team demonstrated techniques for coaching hearing impaired players.

Room scheduling

The Office of the Registrar is now responsible for centralized scheduling of College classrooms and conference room space, excluding the Cafeteria, Ely Center and departmentally-controlled facilities.

Requests for day, evening and weekend room reservations are welcome, and request forms are available in HMB 107. Request forms will also be sent by mail to interested parties.

It would be appreciated if requests can be made at least one week in advance of the scheduled event. Questions regarding room reservations may be referred to the Office of the Registrar, x5428 voice or x5427 TDD.

Perspectives editor Maggie Correia talks with Mark Goldfarb from Kendall during a reception held Sept. 29 to celebrate the premier issue of Perspectives. The national magazine for teachers of the hearing impaired will be published five times a year.

Bison and Eagles lose; others win

by Mike Kaika

The College football team journeyed to Pennsylvania on Saturday, Oct. 2 to take on Stevens Tech. The Bison lost 33-20.

Stevens opened the game with a first quarter TD and the extra point kick was good. Gallaudet struck pay dirt early in the second quarter on an eight yard TD pass from quarterback Walter Ripley to end Andy Bonheyo. Ripley passed to Bonheyo again for the two point conversion.

Stevens scored again midway through the quarter and made good the rush for two extra points and a 15-8 lead. But the Bison bounced right back with another TD on a three yard pass from Ripley to tailback Jesse Wade. Gallaudet tried an extra point kick but the ball sailed wide of the goalpost.

Gallaudet took the lead in the third quarter on a one yard run by tailback Mike Chappell. The rush for two extra points was stopped short of the goal-line. The Bison defense tried to protect the 20-15 lead but Stevens kept hammering away and scored another TD on 23 yard gallop. Stevens led 21-20 going into the final quarter but the Bison offense couldn't muster another

point. Meanwhile, Stevens added two more insurance TDs to ice the victory.

In other College sports . . . the soccer team picked up two victories last week defeating St. Mary's 3-2 and Frederick 2-0. The soccer team has a 4-2 record as of Oct. 4 and appear to be on the way to another winning season.

Women's volleyball team broke into the win column last week. The women defeated University of Maryland Eastern Shore 15-8, 15-8 and Marymount 15-2, 15-10. The volleyball team also participated in the Juniata Tourney but results were not available at press time.

At the other end of the campus, the Eagles football team was crushed by St. Pauls 20-0. The Eagles have won only one game in four outings so far this season. The bright spot in the football program is that the MSSD JV team defeated Riverdale Baptist 42-0 last week. Model lost a number of veterans via graduation and are playing with a relatively young team but head coach Bob Westermann is not using this as an excuse.

Other MSSD sports results . . . the women's volleyball team won two more matches last week defeating National Cathedral and Congressional High Schools. The volleyball team is now sporting a 3-1 record.

The soccer team notched its first victory of the season last week when it defeated Congressional 3-2 in an exciting match. Model lost its next game to a strong Queen Anne 4-0.

The cross country team opened its season last week with a triangular meet against Pallotti and Edmund Burke H.S. Model harriers lost to Pallotti 30-34 but defeated Burke 26-37. In cross country the low score wins.

Bank installs TDD

The National Bank of Washington has installed two TDD numbers. The TDD for general banking information is 624-3390 and the TDD for customer inquiries is 537-2298.

The National Bank of Washington is located at 4340 Connecticut Avenue NW, Washington, D.C. 20008. Voice number is 537-2492.
